

3B DESIGN & PRINT

WE ARE
3B DESIGN
& PRINT

3B is made up of a close-knit team of professionals that can help you navigate the vast world of print. Our specialities range from paper printing, to signage manufacturing; all the way through to custom built exhibition stands.

NOT YOUR AVERAGE PRINT COMPANY

Let's be honest, there are millions of print companies set up around the world. We're not going to pretend that we are the very best, because we're a humble team.. but we are a close second.

We're different from every other printers because:

- We are a one stop print shop. From design, to manufacturing, to delivery; we do it all under one roof
- Our team are approachable, critical thinkers that can solve problems quickly
- If it's printed, we can produce it. Most printers limit themselves to paper, signage, vehicles or exhibitions. We offer it all, with our locally-renowned high quality remaining consistant through each department
- We care about our customers. From the design process all the way through to dispatch, there will always be someone on the other end of the phone, solving problems, suggesting alternatives and helping you get the most for your money

We have a real passion for helping brands stand out from the ever-growing crowd, and helping them succeed in their own businesses respectively.

Pick up the phone to talk to one of our experts; let's create something awesome!

The 3B team

QUALITY YOU CAN TRUST

Believe it or not, printing is not as simple as pressing 'CTRL+P' on your keyboard.

We pride ourselves on our continued colour performance; matching your corporate colours consistently through every job, year after year. Our production department has a keen eye for detail, and are always on the look out for anything short of perfect.

Some of the largest brands and events in the world have trusted us to represent them on the global stage, such as The Open.

Our signage was all over the world-famous golfing tournament, and seen by over 2.5 million viewers worldwide. We had the pleasure of decorating the hospitality suites, with bespoke items such as:

- Printed plywood menus
- Cotton printed canvases
- Printed panels of glass featuring golfers
- Acrylic plaques with wayfinding signage

It's easy to write good things about yourself - read what our customers say on the following page.

WE ARE CREATIVE ENTHUSIASTS

Putting an idea from brainwave to paper is an artform in itself. Being able to take a concept verbally and illustrate that into a brand new product is something our team are passionate about.

Whether it's a company rebrand, letterhead or exhibition stand, we're here to help you. We love the satisfaction of designing artwork and seeing it go through to manufacturing and become a finished product.

At 3B, our design skills are best put to work when designing:

- Printed products
- Custom exhibition stands
- Company rebrands
- New company logo + social media templates
- Brand guidelines
- Vehicle wraps (especially food trucks)

With competitive rates and many years experience, our in-house design squadron are ready to be deployed at any moment. Speak to one of our friendly team today to find out how we can help take your brand to the next level.

“We came to 3B to wrap out old burger van with a new design as the old one was pretty dated.

What Megan came up with blew our minds!! It was far better than we had anticipated and we now have the coolest burger van around.

Thank you!!”

RONNIE & SCOTTS

WE ARE EXHIBITION ARTISANS

For the last 6 years we've become increasingly more involved in the exhibition arena. What started as small fabric stands, has evolved into large, custom built exhibitions. We've worked with some big brands and are continuing to expand in this space.

We offer a few main types of stand, which come with their own pros and cons. These are:

- Modular system with fabric graphics
- Shell scheme stand
- Custom manufactured

If you're wanting to save on costs, a modular system is the one for you. You can install this yourself with a set of build plans.

However, if you're wanting to make a statement and threaten the big brands exposure; a custom stand is what you want. If you can dream it, we can make it.

A great example of this is a stand we manufactured for Autoglass, which you can see on the following page.

Let's make something awesome.

We started using 3B Design recently for our exhibition and display needs and they slotted perfectly into working with our existing creative agency and members of the wider business.

The projects they have delivered have been a real asset to the business and help us to achieve our key goals of trial and awareness with both consumer and trade.

Everything from concept to design and delivery (as well as dealing with any curveballs that inevitably arise at shows) has been consistently dealt with care, creativity and a real eye for the detail of our brand.

BUDVAR

"It was a pleasure to work with 3B Design & Print on this new stand build for the Fleet Live 2018 exhibition. They really understood what we were looking for and ensured that the whole process was smooth. Knowing 3B were there to set up and take down really took a load off our minds on the day and enabled us to focus on the event itself. Even the 3B Managing Director was there on the day, helping to set up the stand – now that's commitment!"
